

HVAC SERVICE

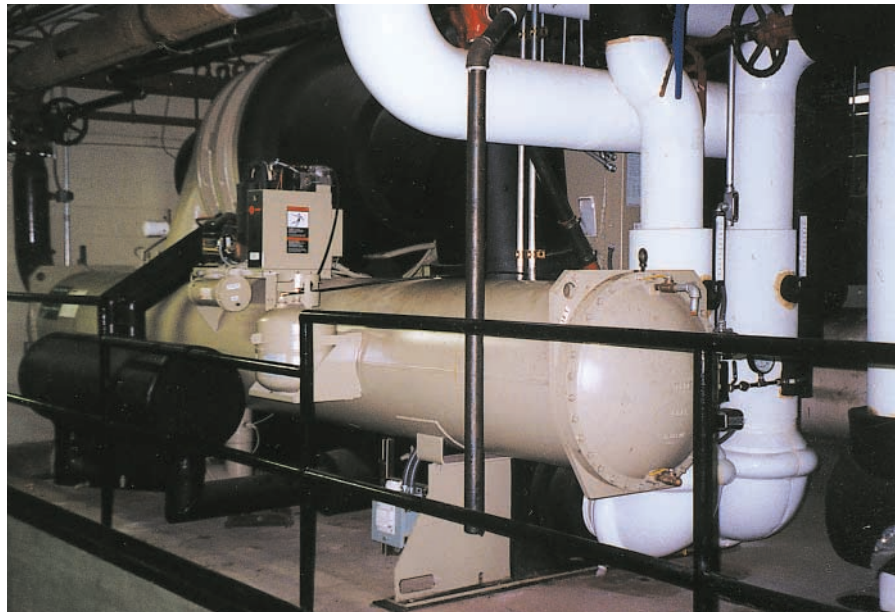

These 1,281 MBH hot water boilers (above) were installed and serviced by August Winter & Sons to meet the strict needs of a museum. Smaller boiler systems like this church retrofit (right) are routinely handled everyday by August Winter.

August Winter & Sons has installed and serviced commercial and industrial HVAC systems for more than 50 years. You can rely on our team of qualified, expert technicians 24-hours-a-day, any day of the year. Our experienced technicians can provide a wide variety of services.

- Complete HVAC systems
- Steam or hot water boilers
- Centrifugal water and air-cooled chillers
- Complete refrigeration systems
- Pneumatic and DDC temperature controls
- 24-hour emergency service

These circulating pumps, used in conjunction with chiller systems like the one at right, were designed and installed by August Winter & Sons.

This 500-ton chiller, installed for a paper mill application, provides constant, year-round temperature and humidity control for the mill's plant and offices.
